YOUNG GIRL HELD AT PISTOL POINT

Richmond Man to Face Charge of Attempted As-

WAS HUNTING FOR HIS CHILD

Lockhardt Denies Guilt and Tells Story of a Father's Search for Daughter.

On a warrant Issued on the 9th of this month, charging him with attempted criminal assault upon Gertrude Brown, a fourteen-year-old white girl, the daughter of Mrs. M. C. Brown, of No. 1706 East Main Street, Charles B. Lockhardt, twenty-two years of age and formerly a Richmond boy, was arrested yesterday afternoon shortly after 2 o'clock by Captish A. M. Tomilnson, chief of setectives, who has been working on the case for soveral days. He was taken to the First Police Station, where he was positively identified by the little girl and her mother as the man whom the former claims enticed her into a dark field near the New Reservoir, and while holding a revolver at her breast, attempted the assault, and whom the mother says represented himself to her as the nephew of Captain Tomilisson, with a warrant for her arrest, to be executed at once, unless the girl accompanied him to the City Hall.

cocented at once, unless the girl accompanied him to the City Hall.

Lockhardt, a young man who is of good appearance, but who is familiarly known to the police, and who has served a sentence in the city jall, denies the accusation against him, claiming that it is a asse of mistaken identity. He alleges that if any one is guilty of the attempted rime upon the little girl, it is a stranger who came with him from Petersburg a few days ago, and who took him to the home of Mrs. Brown, on East Main Street, telling him that information could be sented there that would lead to the discovery of his child. Lockhardt says that he saw the mother and the daughter at the foot of the stairs leading to the rooms above, and that he only spoke a few and that he only spoke a few to them, while his companion went rs. He states that he left the house before his companion came down the tens, and that he knew nothing of the itterpted crime until he was arrested restrictly afternoon.

Thock may kill her. I went from here to l'etersburg to see a woman by the name of Josle Russell, who once lived in Swansbore and who has kidnapped my child from Dr. Maybee. I heard the wocilid from Dr. Maybee. I neard the wo-man was in Petersburg and I did not want her to have the child. I went to see Chief of Police Ragland in Petersburg and he was not in. In his office I saw a young man who followed me out and was working for an afternoon inper in Richmond and would help me into the woman. I visited several houses where I thought the woman could be, and timily left the young man, whom I shortly before met, at the corner of Cumberland and Sycamore Streets. I started to talking with another young man and told him I would give him \$25 if he would and the woman, or would give me some ing the woman that had my child. I told him her name and he said that he had gotten a letter from her from Cincinnati, ed that she was at No. 612 North Fourth Street. Cincinnati. He came to Richmond with me and we got here on a Tuesday night. He took me down Main Street until we got to this place, No. 1706, and he said that he would find out tone information there. He said that the woman Josie Russell, with a woman called C. B. Gray, Estelle Gray or Daisy Lee, had left the city together, taking the child with them. got to the child with them. When we got to the house on East Main Street, he went up stairs with the old woman and the young girl remained on the steps for a little while. She went up stairs also, and after I waited for some time I left. and after I wated for some time I lett.
I didn't see anything more of the man
who said he was going to tell me something about my child or the woman that
had taken the chad away. This man
was about five feet ten inches tall, weighed about one hundred and thirty points, had on a black cost, long, gray-checkered pyercoat and wore a dorby. He seemed to be about twenty-four years of age. On the following Wednesday morning I left for Cincinnati, and left a picture with the chief of police there of the worms I was looking for.

Every mother possesses information which is of vital interest to her young daughter.

Too often this is never imparted or is withheld until scrious harm has resulted to the growing girl through her ignorance of nature's mysterious and wonderful laws and penalties.

Girls' over-sensitiveness and modesty often puzzle their mothers and baffle physicians, as they so often withhold their confidence from their mothers and conceal the symptoms which ought to be told to their physician at this critical period.

First Meeting Largely Attended and Programme Interesting. The first meeting of the Smithdeal Literary and Musical Society Friday atternoon was a brilliant success in point of attendance and rendition of the various numbers of the programme. The inaugural address by the president, R. B. Inginam, was excellent and especially appropriate, he taking as his theme the influence of orntory and music in the making of history, and sustained his reputation as a speaker and scholar. He used a number of teiling illustration to show that while we laud the men of arms for heroic deeds—and rightly so—yet orators, bards and musicians have played an equally important part in the history of the rise and fall of nations, and are deserving of as much aderation as the men of arms.

The president closed with an eloquent appeal to the members for a proper appreciation of music and literature, and support in keeping elevated the literary and musicial standard of the society.

After the report of the Committee on By-laws an excellent programme, consisting of declamations, recitations and music was rendered, some of the participants showing artistic powers, while others, although a little stage-frightened on this, their first appearance, reflected credit on themselves, and more will be expected of them later.

Kills Disease Germs

Kills Disease Germs
Contact with Liquozone kills any form of disease germ, because germs are of vegetable origin. Yet to the body Liquozone can do.

Where I where I yet is its main distinction. Common germicides are polsons when taken internally. That is why medicine has been so helpless in a germ disease. Liquozone is exhilarating, yitalizing, purifying; yet no disease germ can exist in it.

The virtues of Liquozone are derived solely from gases. They are generated from the best producers of oxygen, suiphur dioxide and other germicidal gases. The process of making requires large apparatus, and from 8 to 14 days' time. The object is to so fix the gases, and to combine them, as to carry into the system a powerful tonic-germicide.

We purchased the American rights to Liquozone after thousands of tests had

been made with it. Its power had been proved, again and again, in the most difficult germ diseases. Then we offered to supply the first bottle free in every disease that required it. And over one million dollars have been spent to announce and fulfil this offer.

The result is that 11,000,000 bottles have been used, mostly in the past two years. To-day there are countless cured ones, scattered everywhere, to toll what
